

EDUCATION

Degree	Institute	Board / University	CGPA/Percentage	Year
B.Tech CSE	Parul Institute of Engineering and Technology, Vadodara	Parul University	7.71 CGPA	2019-2023
12th	Datahari public school,kukshi(Dhar)	MP board	72%	2019
10th	Datahari public school,kukshi(Dhar)	CBSE	8.8 CGPA	2017

EXPERIENCE

- Prolifics, Inc.

Associate Software Engineer

– Developed and integrated backend Python functions with Azure services, improving system functionality and performance.

– Migrated and optimized legacy procedures from DB.net code to MySQL, enhancing database efficiency and reliability.

– Engineered a robust healthcare system for Circle Health Group using Java and Spring Boot.

– Generated actionable insights through business intelligence reports.
- Aixtor Technology

Java Developer Intern

– Developed portlets, themes, and layouts, integrating third-party systems with Liferay.

– Enhanced user experience by delivering efficient web applications.
- July 2023 - Present

Hyderabad
- Jan 2023 - May 2023

Ahmedabad

PROJECTS

- Employee Management System

(Full-Stack Application)

– Developed a full-stack application for employee management using React, Spring Boot, and MySQL.

– Implemented RESTful APIs for CRUD operations, ensuring a responsive and efficient user experience.

– Utilized proper annotations in Spring Boot to ensure a well-organized and loosely coupled architecture.

– Ensured the application was responsive and user-friendly across various devices and screen sizes.

– Skills Used: React, Spring Boot, MySQL, REST API, CRUD Operations, Responsive Design
- Disney - Clone

(Streaming Service Clone)

– Developed a Disney service clone using React.js for the frontend, ensuring a high-quality user interface.

– Integrated APIs to extract and display comprehensive movie and TV show data dynamically.

– Deployed the application, achieving a modern design and ensuring responsiveness across various devices.

– Enhanced user experience with seamless navigation and optimized performance.

– Skills Used: React.js, API Integration, Responsive Design, Deployment, Modern UI/UX, Tailwind CSS
- Terminal Chat Application

(Java-based Chat App)

– Developed a terminal-based chat application using Java with Spring Socket, demonstrating real-time communication capabilities.

– Implemented client-server architecture with two main components: ‘Client.java’ for user interaction and ‘Server.java’ for handling connections and messaging.

– Ensured seamless communication by managing socket connections and input/output streams effectively, with proper handling of connection closure and termination.

– Skills Used: Java, Multi-threading, Socket Programming, Input/Output Streams, Spring Socket
- Mar 2024 - June 2024

GitHub
- Jan 2024 - April 2024

GitHub

TECHNICAL SKILLS

- Programming Languages: Java, JavaScript (ES6+)
- Tools: Docker, Jenkins, Postman, Visual Studio, Visual Studio Code, Eclipse, Git
- Web Technologies: HTML, CSS, React.js, Spring Boot, Spring Security, Spring MVC, Hibernate, RESTful API development, Express.js, Microservices and Monolithic architecture
- Cloud Technology: Azure Functions, Triggers, Queues, API Management (APIM), Topics
- Computer Science Fundamentals: DBMS, Operating Systems, Object-Oriented Programming (OOP)

ACHIEVEMENTS

- HackerRank certified problem-solving expert, proven and recognized.
- Solved 100+ Questions on Various Coding Platforms.

CODING PROFILES

- Leetcode
- GeeksforGeeks
- HackerRank
